

AMENDMENTS TO THE SPECIFICATION

Page 8, first full paragraph:

Al Further, because it is ~~the system that~~ the power source of the second phase is directly applied from the power source apparatus (battery source), the instantaneous maximum electric power applied on the patient is limited by the maximum electric power of the power source apparatus.

Page 9, third full paragraph:

Ad This is ~~for~~ the reason why the unit is structured such that the control unit is operated only in the direction to control the output.
